I have a portfolio of drug promotion and rep education pieces produced during my full-time job as a copywriter with LBJ*FRB Communications in Canada. Our accounts were with GlaxoWellcome, Berlex, Merck, Rhone-Poulenc, Servier, Hoechst Marion Roussel, and others. Those should be regarded as my "publications" as I was the copywriter. Although I have not written regulatory documents, I'm familiar with them through my job as copywriter.
